DOD STATISTICAL REPORT ON THE MILITARY RETIREMENT SYSTEM
As of September 30, 2007

Introduction

The data published in this report is produced from the files maintained by the Defense Manpower Data Center (DMDC) in Monterey, California. This report compiles data primarily from the Retiree Pay and Survivor Pay files, sorting and compiling data by various categories, such as service, rank, type of retirement, and mailing address of the retiree. Any grouping of members by address reflects mailing, not necessarily residence address. Most reports use the September 30, 2007, end-of-fiscal-year file. Some reports are cumulative and also use earlier files.

Be aware that there are limitations to the accuracy of the numbers. The data is preliminary because of reporting delays. The information about many members who retired or died within one month of the September 30, 2007, reporting date was not processed in time to be included in this report. In some cases, data is missing. Those members are counted either as unknown or are part of the "other" line. In some cases, unknowns are counted differently from table to table. For example, if rank (Officer vs. Enlisted) is known, but grade within rank is not, only the tables which categorize by grade will label these retirees in an unknown status. Those members on the Temporary Disability Retirement List (TDRL) are considered retired on the day they are classified as temporarily disabled. In some cases, members move from TDRL to permanently disabled status, but in that case retirement date remains the original date they were placed on TDRL. Cases where retirees' pay is suspended by the Defense Finance and Accounting Service (DFAS) are excluded from these tables.

We treat annuitants whose pay is suspended a little differently. Those annuitants whose pay is suspended because a Certificate of Eligibility has not been received are still included in our counts. Annuitants whose pay is suspended because DFAS suspects they have died are not included in the counts.

Please note that net pay is the pay after deductions for survivor premiums and benefits offset by a VA award. It is the pay before any deductions for withholding taxes and allotments. Number paid by DoD includes only those whose net pay by this definition is greater than $0.00. Number retired includes all living retirees, including some whose net pay is $0.

In this report, "Combat Related Special Compensation" (CRSC) as well as "Concurrent Receipt Disability Payments" (CRDP) amounts are considered to be part of net retired pay, even though CRSC amounts are not technically considered to be retired pay for certain tax reasons. Reports showing retired pay or payments do not reflect amounts for retroactive pay related to the CRDP and CRSC programs.

All pay tallied in this report is paid from the MRF to retirees and annuitants except for Annuities for Certain Military Surviving Spouses (ACMSS). These annuitants are survivors of either members who died on active duty before SBP started on September 21, 1972, or are survivors of reservists who retired between September 21, 1972, and October 1, 1978, and subsequently died before reaching their 60th birthday.

Coast Guard data is included for informational purposes. Coast Guard data is not part of the DoD total. Their members and survivors of their members are paid by the Department of Homeland Security.

SUMMARY OF THE MILITARY RETIREMENT SYSTEM
As of September 30, 2007

Overview

The military retirement system applies to members of the Army, Navy, Marine Corps, and Air Force. However, most of the provisions also apply to retirement systems for members of the Coast Guard (administered by the Department of Homeland Security), officers of the Public Health Service (administered by the Department of Health and Human Services), and officers of the National Oceanic and Atmospheric Administration (administered by the Department of Commerce). Only those members in plans administered by the Department of Defense (DoD) are included in this report, except in cases where Coast Guard data is shown for informational purposes.

The system is a funded, noncontributory defined benefit plan that includes non-disability retired pay, disability retired pay, retired pay for reserve service, survivor annuity programs, and special compensation programs for certain disabled retirees. The Service Secretaries may approve immediate non-disability retired pay at any age with credit of at least 20 years of active duty service. Reserve retirees generally must be at least 60 years old and have at least 20 qualified years of service before retired pay commences; in some cases the age can be less than 60 if the reservist performed certain types of active service. There is no vesting before retirement.

Non-Disability Retirement From Active Service

There are three distinct non-disability benefit formulas related to three populations within the military retirement system. *Final pay*: Military personnel who first became members of a uniformed service before September 8, 1980, have retired pay equal to final basic pay times a multiplier. The multiplier is equal to 2.5 percent times years of service. *High-3:* If the retiree first became a member of a uniformed service on or after September 8, 1980, the average of the highest 36 months of basic pay is used instead of final basic pay. *Career Status Bonus (CSB)/Redux:* Members who first became a member of a uniformed service on or after August 1, 1986, may choose between a High-3 and CSB/Redux retirement. Those who elect CSB/Redux receive the Career Status Bonus outlined below, also have retired pay computed on a base of the average of their highest 36 months of basic pay, but are subject to a multiplier penalty if they retire with less than 30 years of service; however, at age 62, their retired pay is recomputed without the penalty. Members make their election during the fifteenth year of service and may receive the Career Status Bonus of $30,000 in either a lump-sum or installments. Those who elect CSB/Redux must remain continuously on active duty until they complete 20 years of active duty service or forfeit a portion of the $30,000.

Retired pay and survivor annuity benefits are automatically adjusted annually to protect the purchasing power of initial retired pay. The benefits associated with members first entering the armed services before August 1, 1986, or those entering on or after that date who do not take the bonus, have their benefits adjusted annually by the percentage increase in the average Consumer Price Index (CPI). This is commonly referred to as full CPI protection. Benefits associated with members entering on or after August 1, 1986, who elect the $30,000 CSB bonus payment are annually increased by the percentage change in the CPI minus 1 percent, but at the military member's age 62, or when the member would have been age 62 for a survivor annuity, the benefits are restored to the amount that would have been payable had full CPI protection been in effect. This restoral is in combination with that described in the previous paragraph. However, after this restoral, partial indexing (CPI minus 1 percent) continues for future retired pay and survivor annuity payments.

As of September 30, 2007, there were 1.46 million non-disability retirees from active duty receiving retired pay. In FY 2007, non-disability retirees were paid $35.5 billion.

Disability Retirement

A disabled military member is entitled to disability retired pay if the member has at least 20 years of service or the disability, as rated by the DoD, is at least 30 percent (under a standard schedule of rating disabilities by the Veterans Administration) and either (1) the member has at least eight years of service; (2) the disability results from active duty; or (3) the disability occurred in the line of duty during a time of war or national emergency or certain other time periods.

In disability retirement, the member may elect to receive retired pay equal to either (1) the accrued non-disability retirement benefit regardless of eligibility to retire or (2) base pay multiplied by the rated percent of disability. The benefit cannot be more than 75 percent of base pay. Only the excess of (1) over (2) is subject to federal income taxes if the member had service on or before September 24, 1975. If not a member of a uniformed service on September 24, 1975, disability retired pay is tax-exempt only for those disabilities that are combat or hazardous duty related. Base pay is equal to final basic pay if the retiree first became a member of a uniformed service before September 8, 1980; otherwise, base pay is equal to the average of the highest 36 months of basic pay.

Members whose disabilities may not be permanent are placed on a temporary-disability retired list and receive disability retirement pay just as if they were permanently disabled. However, they must be physically examined every 18 months for any change in disability. A final determination must be made within five years. The temporary disability pay is calculated like the permanent disability retired pay, except that it can be no less than 50 percent of base pay.

Members who elected the CSB/Redux retirement option, but who retired for disability, are not subject to the reduced CSB/Redux retired pay multiplier and are awarded retired pay based on the disability retired rules outlined above. However, such members continue to be subject to the reduced CPI as Career Status Bonus recipients.

As of September 30, 2007, there were 85,000 disability retirees receiving retired pay. In FY 2007, disability retirees were paid $1.29 billion.

Reserve Retirement

Members of the reserves may retire after 20 qualifying years of creditable service. However, reserve retired pay is not payable until age 60 unless the member performs certain types of active duty or active service specified in the National Defense Authorization Act for FY 2008 (P.L. 110-181), in which case the age is reduced below 60 by three months for every 90 days of such service within a fiscal year. However, the age cannot go below 50, and eligibility for retiree health benefits remains at age 60 even if the eligibility age for retired pay is reduced. Retired pay is computed as base pay times 2.5 percent times years of service. If the reservist was first a member of a uniformed service before September 8, 1980, base pay is defined as the active duty basic pay in effect for the retiree's grade and years of service at the time that retired pay begins. If the reservist first became a member of the armed services on or after September 8, 1980, base pay is the average basic pay for the member's grade in the highest 36 months computed as if he/she was on active duty for the entire period preceding age 60. The years of service are determined by using a point system, where 360 points convert to a year of service. Typically, one point is awarded for one day of active duty service (e.g. active duty training) or one inactive duty training (IDT) drill attendance. Reservists may perform two IDT periods in one day thereby receiving two retirement points per day. In addition, 15 points are awarded for completion of one year's membership in a reserve component. A creditable year of service is one in which the member earned at least 50 points. A member generally cannot retire with less than 20 creditable years, although points earned in non-creditable years are used in the retirement calculation. Beginning with years of service that include October 30, 2007, non-active duty points are limited in any year to no more than 130. Lesser limitations have applied in the past.

As of September 30, 2007, there were 313,000 reserve retirees receiving retired pay. In FY 2007, reserve retirees were paid $3.86 billion.

Survivor Benefits

Legislation originating in 1953 provided optional survivor benefits. It was later referred to as the Retired Servicemen's Family Protection Plan (RSFPP). The plan proved to be expensive to the participants and inadequate since the survivor annuities were never adjusted for inflation and could not be more than 50 percent of retired pay. RSFPP was designed to be self-supporting in the sense that the present value of the reductions to retired pay equaled the present value of the survivor annuities.

On September 21, 1972, RSFPP was replaced by the Survivor Benefit Plan (SBP) for new retirees. RSFPP still covers those servicemen retired before 1972 who did not convert to the

new plan or who retained RSFPP in conjunction with SBP. RSFPP continues to pay survivor annuities.

Retired pay is reduced, before taxes, for the member's cost of SBP. Total SBP costs are shared by the government and the retiree, so the reductions in retired pay are only a portion of the total cost of the SBP program.

The SBP survivor annuity is 55 percent of the member's base amount. The base amount is elected by the member, but cannot be less than $300 or more than the member's full retired pay. If the member elects CSB/Redux and is subject to a penalty for service under 30 years in the calculation of retired pay, the maximum base amount is equal to the full retired pay without the penalty. However, the annuity for a survivor of a CSB/Redux retiree is subject to the reduced CPI.

When the plan started in 1972, benefits for those 62 and older were reduced by the constructed amount of Social Security for which the survivor would be eligible based on the member's military pay. In 1985, that reduction formula was changed so all annuitants 62 and over received a reduced flat rate of 35 percent of the member's base. Beginning October 1, 2005, the age 62 reduced rate was phased out in 5 percent increments. On April 1, 2008, the survivor benefit reduction at age 62 was fully eliminated and the rate of 55 percent of the member's elected base became standard for all survivors, regardless of age.

During FY 1987, the SBP program's treatment of survivor remarriages changed. Prior to the change, a surviving spouse remarrying before age 60 had the survivor annuity suspended. The change lowered the age to 55. If the remarriage ends in divorce or death, the annuity is reinstated.

Members who die on active duty are assumed to have retired with full disability on the day they died and to have elected full SBP coverage for spouses, former spouses, and/or children. Insurable interest elections may be applicable in some cases. These benefits have been improved and expanded over the history of the program.

The surviving spouse (or dependent children if there is no surviving spouse or the spouse subsequently dies) of a reservist with fewer than 20 qualifying years of service who dies while performing inactive duty is entitled to a survivor annuity under the Reserve Component Survivor Benefit Program.

SBP annuities are reduced by any VA survivor benefits (Dependency and Indemnity Compensation (DIC)) and all premiums relating to the reductions are returned to the survivor. The 2008 National Defense Authorization Act enacted a temporary Special Survivor Indemnity Allowance that pays a monthly amount ($50 in FY 2009, increasing to $100 by FY 2014, in $10 increments) to survivors with a DIC offset; the authority for the allowance ends in 2016. As with retired pay, SBP annuities and premiums are annually increased with cost-of-living adjustments (COLAs). These COLAs are either full or partial CPI increases, depending on the benefit formula covering the member. If a member who elected the Career Status Bonus dies before age 62, the survivor is subject to partial COLAs and his/her annuity is increased on what

would have been the member's 62nd birthday to the amount that would have been payable had full COLAs been in effect. Partial COLAs continue annually thereafter.

For reserve retirees, the same set of retired pay reductions applies for survivor coverage after a reservist turns 60 and begins to receive retired pay. The Reserve Component Survivor Benefit Plan (RCSBP) provides annuities to survivors of reservists who die before age 60, provided they attained 20 years of qualified service. The added cost of this coverage is borne completely by reservists through deductions from future retired pay and/or survivor annuities.

A paid-up provision eliminating the reduction in retired pay for premiums for SBP and RSFPP coverage will be effective October 1, 2008, for participants age 70 or older whose retired pay has been reduced for 30 years or more.

As of September 30, 2007, there were 287,000 survivors of military members receiving annuity payments. In FY 2007, survivors were paid $2.92 billion.

Temporary Early Retirement Authority (TERA)

The National Defense Authorization Act for FY 1993 (P.L. 102-484) granted temporary authority for the military services to offer early retirements to members with more than 15 but less than 20 years of service. This authority expired on September 1, 2002. The retired pay was calculated in the usual way except that there was a reduction of 1 percent for every year below 20 years of service. Part or all of this reduction can be restored at age 62 if the retired member works in a qualified public service job during the period from the date of retirement to the date on which the retiree would have completed 20 years of service. Unlike members who leave military service before 20 years with Voluntary Separation Incentives or Special Separation Benefits, these early retirees are generally treated like regular military retirees for the purposes of other retirement benefits.

As of September 30, 2007, there were 58,000 TERA retirees receiving retired pay. In FY 2007, TERA retirees were paid $834 million.

Cost-of-Living Increases

All non-disability retirement, disability retirement, and most survivor annuities are adjusted annually for inflation. Cost-of-living adjustments (COLAs) are automatically scheduled to occur every 12 months, on December 1st, to be reflected in checks issued at the beginning of January.

The "full" COLA effective December 1 is computed by calculating the percentage increase in the average CPI over the third quarter of the prior calendar year to the third quarter of the current calendar year. The increase is based on the Urban Wage Earner and Clerical Worker Consumer Price Index (CPI-W) and is rounded to the nearest tenth of one percent.

The benefits of retirees (and their survivors) are increased annually with the full COLA, except

for those first entering the armed services on or after August 1, 1986, who elect the $30,000 Career Status Bonus. Their benefits are increased annually with a partial COLA equal to the full COLA minus 1 percent. A one-time restoral is given to a partial COLA recipient on the first day of the month after the retiree's 62nd birthday. At this time, retired pay (or the survivor benefit if the retiree is deceased) is increased to the amount that would have been payable had full COLAs been in effect. Annual partial COLAs continue after this restoral.

Relationship with Department of Veterans Affairs Benefits

The Department of Veterans Affairs (VA) provides compensation for Service-connected and certain non-Service-connected disabilities. These VA benefits can be in place of or in combination with DoD retired pay, but through December 31, 2003, were not fully additive. Since VA benefits are exempt from federal income taxes, it is often to the advantage of a member to elect them. Through 2003, retired pay earned from DoD for military service was offset by any payment received from VA for a VA-rated disability. Beginning with the National Defense Authorization Act for FY 2004 (P.L. 108-136), a series of legislation has been enacted that increasingly reduces or eliminates the offset to military retired pay due to receipt of VA disability compensation. Members with a combined VA disability rating of 50% or greater who have at least 20 years of service will have their offset eliminated under the Concurrent Retirement and Disability Pay (CRDP) program. The CRDP program has a ten-year phase-in schedule that began in 2004; however, the offset is already fully eliminated for members whose disabilities are rated total or make the individual unemployable. Members whose disability meets certain combat-related criteria can elect to receive payments against the offset under the Combat Related Special Compensation (CRSC) program. Under CRSC, members are not subject to a phase-in schedule, are not required to have at least 20 years of service, and are not required to have at least a 50% VA disability rating. Although CRSC amounts are calculated based on retired pay lost due to offset and are paid from the Military Retirement Fund, CRSC is not technically considered retired pay. CRSC payments are tax exempt. A member may not participate in both the CRDP and CRSC programs simultaneously, but may change from one to the other during an annual "open season."

VA benefits also overlap survivor benefits through the Dependency and Indemnity Compensation (DIC) program. DIC is payable to survivors of veterans who die from Service-connected causes. Although an SBP annuity must be reduced by the amount of any DIC benefit, all SBP premiums relating to the reduction in benefits are returned to the survivor. The 2008 National Defense Authorization Act enacted a temporary Special Survivor Indemnity Allowance that pays a monthly amount ($50 in FY 2009, increasing to $100 by FY 2014, in $10 increments) to survivors with a DIC offset; the authority for the allowance ends in 2016.

Interrelationship with Other Federal Service

For military retirement purposes, no credit is given for other federal service, except for TERA and where cross-service transferability is allowed. Military service is generally creditable toward the federal civilian retirement systems if military retired pay is waived. However, a

deposit (equal to a percentage of post-1956 basic pay) must be made to the Civil Service Retirement Fund in order to receive credit. Military service is not generally creditable under both systems (but is for reservists and certain disability retirees). Military retirees may qualify separately for Civil Service retirement and receive concurrent pay from both systems.

Relationship of Retired Pay to Military Compensation

Basic pay is the only element of military compensation upon which retired pay is based and entitlement is determined. Basic pay is the principal element of military compensation that all members receive, but it is not representative, for comparative purposes, of salary levels in the public and private sectors. Reasonable comparisons can be made to regular military compensation (RMC). RMC is the sum of (1) basic pay, (2) cash or in-kind allowances (the housing allowance, which varies by grade, location, and dependency status, and a subsistence allowance) and (3) the tax advantages accruing to allowances because they are not subject to federal income tax. Basic pay represents approximately 69 percent of RMC for all retirement eligibles. For the 20-year retiree, basic pay is approximately 67 percent of RMC. Consequently, a 20-year retiree may be entitled to 50 percent of basic pay, which may be only 34 percent of RMC. For a 30-year retiree, the corresponding entitlement is 75 percent of basic pay, but only 55 percent of RMC. These relationships should be considered when military retired pay is compared to compensation under other retirement systems.

Social Security Benefits

Many military members and their families receive monthly benefits indexed to the CPI from Social Security. As full participants in the Social Security system, military personnel are in general entitled to the same benefits and are subject to the same eligibility criteria and rules as other employees. Details concerning the benefits are covered in other publications.

Beginning in 1946, Congress enacted a series of amendments to the Social Security Act that extended some benefits to military personnel and their survivors. These “gratuitous” benefits were reimbursed out of the general fund of the U.S. Treasury. The Servicemen’s and Veterans’ Survivor Benefits Act brought members of the military into the contributory Social Security system effective January 1, 1957.

For the Old Age, Survivors, and Disability Insurance (OASDI) program, military members must contribute the employee portion of the OASDI payroll tax, with the federal government contributing the matching employer contribution. Only the basic pay of a military member constitutes wages for Social Security purposes. One feature of OASDI unique to military personnel grants a noncontributory wage credit of (i) $300 for each quarter between 1956 and 1978 in which such personnel received military wages and (ii) up to $1,200 per year after 1977 ($100 of credit for each $300 of wages up to a maximum credit of $1,200). The purpose of this credit is to take into account elements of compensation such as quarters and subsistence not included in wages for Social Security benefit calculation purposes. Under the 1983 Social Security amendments, the cost of the additional benefits resulting from the noncontributory wage

credits for past service was met by a lump sum payment from general revenues, while the cost for future service will be met by payment of combined employer-employee tax on such credits as the service occurs. Payments for these wage credits ended in 2002.

Members of the military are also required to pay the Hospital Insurance (HI) payroll tax, with the federal government contributing the matching employer contribution. Medicare eligibility occurs at age 65, or earlier if the employee is disabled.

FOOTNOTES TO NUMBER OF RETIRED MILITARY PERSONNEL BY YEAR, 1900 - PRESENT

1. Figures are as of June 30 in each year up to and including 1975, except that some of the figures for Navy and Marine Corps Officers are as of January 1. From 1976 on, figures are as of September 30.

2. Emergency Officers Retired List (WWI), Reserve Officers Retired List (WWII) and P.L. 262, 77th Congress. Responsibility for payment of retirement benefits to the Reserve Officers Retired List was transferred to the Army and Air Force effective July 1, 1950. Omitted after 1965.

3. Figures for 1910 and for 1917-1949, both inclusive, are wholly or partly estimated.

4. Prior to July 1, 1950, the retired Air Force personnel are included in the Army figures.

NOTES: Beginning with 1950 the figures represent the number of retired military personnel receiving retired pay. Before 1950, the figures may include personnel not receiving retired pay, particularly during the 1940s. Honorary retirements are excluded in all cases.

Number of Eligibles is number who had completed 19 years of active service at the conclusion of the prior year.
Number retiring for this fiscal year is preliminary and subject to adjustments; most likely to be revised upward.
Fiscal years 1957-1975 are July-June. 1976 is July-September (15 months) and 1977-present is October 1 - September 30.
Fiscal Years 1957-2004, number retiring are only non disability retirees with 20 or more years.
Beginning in 2005, number retiring are both non disability and disability retirees with 20 or more years.
In some cases for earlier years, the numbers are estimates.

*Fiscal years 73-76 are July to June. Fiscal Year 77 is July to September (15 months). Fiscal Years 78-Present are October to September.

For Fiscal Years 1973-1979, only end month data was available. The estimate is the average of the end month and the previous year end month multiplied by 12.
For Fiscal Years 1980-1989 and 1991-2002, costs and counts of people are estimated by multiplying the midpoint of the fiscal year, March by 12.
For Fiscal Year 1990, legislation significantly reducing SBP costs to retirees became effective March 1, 1990. Figures for FY90 were estimated by multiplying the December numbers by 5 and the June numbers by 7 and adding.
For Fiscal Year 2003 and forward, costs and counts of people are obtained by looking at each of monthly file during the year and averaging or adding.

70+ @ 30 is the number of retirees who turn 70 by the end of the fiscal year they will have paid survivor premiums for 30 years.
The actual number is probably higher since this report does not give credit to all premiums paid by members who had a break in SBP coverage.
In cases where a retiree elected SBP, subsequently suspended premiums and later restarted paying premiums, election year is the fiscal year premiums resumed.
Table includes only those retirees who paid a survivor premium in the last month of fiscal year, 2007.

Notes About Retired Pay Tables

Figures assume current year retirees with less than 28 completed years of active duty service entered the military after September 7, 1980. Same is true for previous year retirees with less than 27 years; two year ago retirees with less than 26 years and so on. These retirees are subject to the high-3 formula. Figures assume retiree spent the final 3 years at the same grade in which he/she retired. Exception is for retirees in grade O-9 or higher or W-5, where it is assumed they were at a lower grade prior to serving 20 years. Figures also assume retiree did not receive any increases during the last 3 years of active service other than annual pay increases, declined the Career Status Bonus, served the exact number of years in the column heading without any additional months, and when pay table runs through the middle of the year, figures and partial colas are based on a mid year (July 1) retirement. If pay table started or ended mid year or did not run through the middle of the year, figures are based on retirements occurring on the first day of a month closest to the midpoint of the period that table was in effect.

Figures assume current year retirees with 28 or more completed years of active duty service entered the military before September 8, 1980, and their retired pay is based on the final pay formula. Figures are based on the member serving the exact number of years in the column heading and his/her final pay being the active duty pay for a member with that amount of years of service.

Because retirees received different increases in the last three years and did not receive the same partial COLAs and may have been affected by other various amendments, some individuals receive differing amounts than those shown in the tables.

Pay Scale indicates pay scale in effect for active duty personnel at time of retirement.

Figures shown assume that active service and pay service are equal.

Military retired pay reflects CPI increases where required prior to and including January 1, 2008. For members who retired on or after January 1, 2007, retired pay is computed without considering the active pay cap.

Retired pay for members who served 31+ years and retired prior to January 1, 2007, is not shown.
Members who served more than 30 years and retired before January 1, 2007, receive the same retired pay as a member who served exactly 30 years and retired in the same year.

Notes About Pages 274 - 278

Lump sum equivalent values are not adjusted for any reduction in DoD benefits due to offsets and does not include the value of survivor benefits.

*The lump-sum-equivalent is the amount of money required to be on hand at the time of retirement to pay a lifetime annuity that increases with inflation at 3% annually
The interest rate used in discounting to the present value is 6% resulting in what is commonly referred to as a real interest rate of 3%.
Longevity is based on military specific tables that assume an entry age of 23 for commissioned officers and warrant officers and 20 for enlisted.

Warning: these figures should not be used in property settlements for the following reasons:

(1) They assume full future cost-of-living adjustments (which have been determined in some courts not to be property).
(2) The investment return is low (producing large lump-sums) because of the conservative portfolio of government trust funds.
(3) Only the mortality of the retiree is considered (some courts require the use of the spouse's mortality).

See page 273 for description of how retired pay is determined.
