MEMORANDUM FOR INFRASTRUCTURE STEERING GROUP (ISG) MEMBERS

SUBJECT: Coordination on Scenario Conflicts Proposed Resolutions

As agreed at the October 15, 2004, Infrastructure Steering Group meeting, the DASs were to brief only those scenarios for which they could not agree on a proposed resolution. The DAS's review of the second batch of scenarios indicated there were no issues for in-person ISG deliberations. Therefore, I cancelled the October 22, 2004, meeting and will obtain your concurrence on the DAS's newly proposed resolutions as well as concurrence on the revised wording of proposed resolutions to conflicts shown to the ISG during the October 15, 2004, meeting via paper.

The attached package includes all 235 scenarios registered in the tracking tool. A summary of these scenarios, broken out by category (Independent, Enabling, Conflicting, Deleted, and Not Ready for Categorization) can be found at TAB 1. The section titled "Prior ISG Conflicts" (TAB 2) includes updates to proposed resolutions for conflicting scenarios based on the ISG discussion of those conflicts at the October 15, 2004, meeting. The section titled "Proposed Removal of Conflict" reflects a change to a previous ISG decision. Two scenarios had originally been categorized as conflicting, but, after further review, the DASs determined them not to be in conflict (TAB 3).

The section titled "Conflicts Settled" includes new scenario conflicts on which the DASs and affected JCSGs agree regarding the proposed resolution (TAB 4). The details of each scenario, by category, are provided at TAB 5 – TAB 8.

Request your written concurrence on the proposed resolutions by COB on Monday, November 1, 2004.

A handwritten signature in black ink, appearing to read "Michael W. Wynne".

Scenario Title: Scenario SR-1

Description:

This scenario consolidates intermediate-level ship maintenance, specifically:
Realigns and consolidates intermediate workload at Norfolk Naval Shipyard . SIMA Norfolk would be closed and Norfolk Naval Shipyard would assume the intermediate workload. Assumes all SSNs from Norfolk would change homeport to Subase, New London. Intermediate submarine work at SIMA Norfolk would be realigned to NAVSUBSUPPFAC NEW LONDON. Consolidates intermediate-level ship maintenance in the San Diego region with the new Southwest Navy Regional Maintenance Center. Assumes a DON scenario closes NAVSTA Pascagoula and decommissions or moves the homeported ships. This scenario disestablishes SIMA Pascagoula.

Scenario Title: Scenario SR-3

Description:

This scenario assumes a DON scenario which moves a CVN Strike Group from Norfolk to Hawaii. Also assumes the replacement carrier for USS KITTY HAWK (CV 63) upon her decommissioning comes from the East Coast. Pearl Harbor NSY&IMF partners with Puget Sound NSY or other nuclear carrier qualified workforce to perform the I-Level ship maintenance work for the carrier. To compensate for the additional carrier work performed at Pear Harbor, this scenario moves some long-term submarine depot work from Pearl Harbor to Portsmouth NSY or to Puget Sound NSY&IMF or Norfolk NSY. This scenario also realigns maintenance of Army watercraft stationed in Hawaii to Pearl Harbor NSY&IMF.

•The 21 Central and Field Operating Sites to be disestablished are at 24 physical locations as follows: (1) Arlington, VA; (2) Charleston, SC; (3) Cleveland, OH; (4) Dayton, OH; (5) Kansas City, MO; (6) Lawton, OK; (7) Lexington, KY; (8) Limestone, ME; (9) Norfolk Naval Air Station, VA; (10) Oakland, CA; (11) Omaha, NE; (12) Orlando, FL; (13) Pacific (Ford Island), HI; (14) Patuxent River, MD; (15) Pensacola Naval Air Station, FL; (16) Pensacola Saufley Field, FL; (17) Red River, TX; (18) Rock Island, IL; (19) Rome, NY; (20) San Antonio, TX; (21) San Bernardino, CA; (22) San Diego, CA; (23) Seaside, CA; and (24) St. Louis, MO.

•No change to the following special purpose locations: (1) Cleveland Bratenahl, OH; Mechanicsburg, PA; and Southbridge, MA.

•Liaison office in NCR.

•Military Retired and Annuitant Pay contracted function remains in Cleveland, OH, pending any contract modifications executed by DFAS.

Additional space requirements are as follows:

•Columbus, OH: DFAS requires an additional 209,323 USF above CDC #1 reported assigned space. DLA's CDC response for Defense Supply Center indicated 363,200 USF vacant/available.

•Denver, CO: DFAS requires an additional 127,929 USF above CDC #1 reported assigned space. Departure of Air Reserve Personnel Center (ARPC) will free up 127,964 USF and enable completion of DFAS realignment to Buckley AFB Annex. Scenario's associated with the ARPC are HSA-0004, HSA-0005, and HSA-0008.

•Indianapolis, IN: DFAS requires an additional 26,697 USF above CDC # 1 reported assigned space. Departure of Human Resource Command – Indianapolis (former EREC) will free up 76,740 USF and enable completion of DFAS realignment. Scenario's associated with the Human Resource Command – Indianapolis HSA-0004, HSA-0005, and HSA-0006.

Justification/Impact proposed:

•Reduces footprint – Admin by 42% or 1,399,421 USF and Warehouse by 69% or 525,690 GSF.

•Implements merge/co-location personnel reduction (15%).

•Overall AT/FP enhancement – DFAS will be on a DoD installation or in Government leased space that meets DoD AT/FP standards.

•Service's unit costs will go down.

•Gaining site expansion enabled by departure of specific military personnel organizations from Denver and Indianapolis.

•No requirement for renovation at gaining sites.

•Risk averse – Mitigates risk thru centralized, apportioned operations (each segment may serve as backup).

•Better Business Practice - Creates business line centers of excellence.

•Facilitates DFAS re-engineering for FY2011 organization.

Scenario # HSA-0019

Scenario Title: GC-CF-0003: Transfer Level III Discharged Prisoners to Federal Bureau of Prisons

Description:

Realign Ft Leavenworth by transferring long-term (Level III) bed space to Federal Bureau of Prisons (FBOP). Increase number of long-term (Level III) beds with the Federal Bureau of Prisons for transfer from United States Disciplinary Barracks (USDB), Ft Leavenworth.

Justification/Impact:

Current agreement with Federal Bureau of Prisons (FBOP) is insufficient.

- Approximately 1/3 of long-term prisoners are fully adjudicated and discharged from the military.
- Increase in FBOP support would open beds for shorter long-term prisoners at Level II facilities.
- Discharged prisoners would be sent to federal system.
- Efficient utilization of United States Disciplinary Barracks beds/cells.
- Promotes "Good order and discipline," by transferring prisoners who have committed the most serious of offenses and given long term or life sentences, away from general prison population.

Potential Conflicts:

- Cultural: "Cradle to grave" mentality. Military departments may wish to keep fully adjudicated and discharged prisoners as a way of the military "taking care" of its own.
- Other: Cost.

Scenario Title: GC-CF-0012: Create a Single Northwestern Regional Correctional Facility

Description:

Realign Subbase Bangor and Fort Lewis by disestablishing the correctional facility at Subbase Bangor and relocating the mission to a single level II correctional facility located at Fort Lewis.

Justification/Impact:

- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- Subbase Bangor (Year built-1995)/(FY01 inmate count-42); Fort Lewis (Year built-1957)/(FY03 inmate count-206). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable land is available at Fort Lewis, questionable as to availability of land at Subbase Bangor. New facility required at Fort Lewis.

Potential Conflicts:

- Cultural: Fewer DoD-level correctional facilities amongst military departments.

Description:

Realign MCAS Miramar, Edwards AFB, Kirtland AFB and Camp Pendleton by disestablishing the correctional facilities at Edwards AFB, Kirtland AFB and Camp Pendleton and relocating the mission to a single level II correctional facility to be located at MCAS Miramar.

Justification/Impact:

- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- MCAS Miramar (Year built-1989)/(FY03 inmate count-320); Edwards AFB (Year built-1950)/(FY03 inmate count-14); Kirtland AFB (Year built-1950)/(FY01 inmate count-16); Camp Pendleton (Year built-1972)/(FY02 inmate count-213). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ MCAS Miramar. Additional facility required.
- MCAS Miramar remains executive agent for Level III females.

Potential Conflicts:

- Cultural: Fewer DoD-level correctional facilities amongst military departments.
- DON: Large Level I requirement as of 9/22/04 (60-pre-trial, 61-adjudged level I, 51- level II). Pretrial confinement is used intuitively by DON (cultural). USA and USAF don't use pre-trial as often as DON.

This scenario assumes a DON scenario which moves a CVN Strike Group from Norfolk to Hawaii. Also assumes the replacement carrier for USS KITTY HAWK (CV 63) upon her decommissioning comes from the East Coast. Pearl Harbor NSY&IMF partners with Puget Sound NSY or other nuclear carrier qualified workforce to perform the I-Level ship maintenance work for the carrier. To compensate for the additional carrier work performed at Pearl Harbor, this scenario moves some long-term submarine depot work from Pearl Harbor to Portsmouth NSY or to Puget Sound NSY&IMF or Norfolk NSY. This scenario also realigns maintenance of Army watercraft stationed in Hawaii to Pearl Harbor NSY&IMF.
