Dear Mr. Evers:

This is in response to your Freedom of Information Act (FOIA) appeal of October 12, 1992.

In response to your appeal, the Defense Security Assistance Agency (DSAA) conducted another search for records responsive to your request. The attached records, located on DSAA's second search, and released in part, contain commercial or financial information which was received in confidence. The records also represent issues which are not yet finalized, therefore qualifying as deliberative and predecisional, the premature release of which would adversely affect the government's negotiating position.

Accordingly, I must withhold the information pursuant to 5 U.S.C. 552 (b)(4) and (b)(5). Please be advised that you have the right to judicial review in a United States District Court in accordance with 5 U.S.C. (a)(4)(b).

Sincerely,

Robert W. Taylor
Principal Deputy Assistant Secretary
of Defense (Public Affairs)

2. The Foreign Military Sales Billing Statement, DD Form 645, will serve as the statement of account and billing statement. An FMS Delivery Listing identifying items physically or constructively delivered, and services performed during the billing period, will be attached to the billing statement. The Security Assistance Accounting Center (SAAC) forwards billing statements to Purchasers no later than 45 days before payments are due, and Purchasers will forward payments in U.S. dollars to the U.S. Government in time to meet prescribed due dates. The preferred method for forwarding cash payments is by bank wire transfer to the Department of the Treasury account at the Federal Reserve Bank of New York using the standard federal reserve funds transfer format. Wire transfers will be accepted by the Federal Reserve System (FRS) only from banks that are members of the FRS, therefore, non-U.S. banks must go through a U.S. correspondent FRS member bank. The following information is applicable to cash payments:

a. Wire Transfer:

Should this occur, DOD would be unable to comply with the advance payment requirement of the Arms Export Control Act and the U.S. will use its best efforts to provide a revised schedule (DD Form 1513-2) at least 45 days prior to the next payment due date. The Purchaser is required to make payments in accordance with quarterly billings (DD Form 645) issued by the SAAC regardless of the existing payment schedule.

Should the final total costs be less than the funds collected, such excess funds will be available for payment of unpaid billings for other agreements. If there are no such unpaid billings, excess funds will be disposed of as agreed upon between the Purchaser and the Comptroller, DSAA.
